

NEURUS 2019 Seminar

Hosted by:

Department of Urban and Regional Planning

University of Florida

Architecture Building

April 12-13, 2019

Place for seminar sessions:
DCP Dean's Conference Room
3rd Floor Architecture Building
(Just inside the exterior door of 3rd Dean's
Office Suite)

Logistics:

Greetings from Jakarta, Indonesia

I wish that I could be there to participate in the NEURUS seminar, one of the highlights of any academic year. But I am here finishing up my Fulbright lectureship at the University of Indonesia and so leave you in the hands of my generous colleagues, Ruth, Abhinav, Michael and Kjerstin (and probably others). I have prepared this schedule on the assumption that the participating faculty who I identified as moderating the sessions on Friday and Saturday do not object to that onerous task.

I am suggesting that for lunch on Friday, you should use the Broward (student) dining room ("Fresh Food Company") located directly behind the Architecture Building on Inner Drive. All you can eat of various sorts of cuisine for one relatively reasonable (but not cheap price). Other options are to go north through the campus and select one of the many fine eateries on University Avenue. Obviously, I hope the tradition continues of students and faculty do their own meals on Friday night and there will be a joint meal to wrap up on Saturday night. I have requested my local colleagues to see about Leonardo's 706 (706 W. University Avenue down from Holiday Inn). They have a separate room which works for a large group.

For getting to campus from the various locations of your accommodations, the students need to rely on their hosts for directions and probably transportation. For faculty staying at any of the hotels on University Avenue (across from campus), you just walk down 13th Street and cut into the campus anywhere (if you want to wander) or simply go down to the Fine Arts complex on the west side and cut into campus there. The Architecture Building is right next to it. I am attaching a picture of it below so you know what it looks like for those who have never been there. For those coming up from the Quality Inn on 13th Street to the south of campus, the Fine Arts Complex will be on your left. Because of the Saturday afternoon football game, the always challenging problem of parking get even worse. So either an Uber, Lyft, RTS Bus or being dropped off. The Architecture Building has a below ground level (Floor 1) so you approach the building at Floor 2. So to get to 3rd Floor Conference Room you are only going up one flight of stairs.

Finally, it was suggested by one of the visiting Humboldt students at UF (there is only one, that Moritz) that it might be fun to attend the Spring scrimmage of the UF (American) football team. That is called the Orange and Blue Game because half the team plays in orange and the other half in blue. Wow! Clever! Actually it is widely attended although not at all as much as the regular season games so tickets should be readily available and hopefully at a modest price. But note that unlike the European football game Paul took me to in Groningen, you can't bring or buy beer, or if upset pour it on the fans of the rivals. Gator football, very civilized.

I wish you well and congratulate the students for getting to end of what was I presume a very busy but also exciting year, and that your NEURUS experience was very positive.

Chris

Seminar Schedule: Arch. Bldg, 3rd Floor, DCP Dean's Conference Room

Friday, April 12

08:30 Room open for refreshments

09:00 Welcome, Self-Intros and Schedule – Ruth/Abhinav/Michael - UF

Session 1 Moderator: Sara Meerow

09:15 Renne Ten Tijn, (UG-ASU) “Why Do Millennials With Hyper Mobile Jobs Work Where they Work?”

09:45 Marco Iniguez, (UCI-UG) “Bicycling Lesson Learned from International Students in Groningen”

10:15 Moritz Roslermo, (HU-UF) “Determining Factors Encouraging Bicycle Use Among College Students in Gainesville”

10:45 – 11:00 Break

Session 2 Moderator: Elmar Kulke

11:00 Dennis Fila (HU to UCI) “The Impact of the 2028 Summer Olympics on Sustainable and Equitable Urban Development in Los Angeles”

11:30 Anne-Sophie Kagel (HU to UCI) “The Impact of Digitization on Urban Food Deserts: A Study on Food Deserts and Grocery System in Los Angeles”

12:00 Elyse Dallas (UF to UG) “Dutch Water Management Practices and Their Applicability in Jakarta, Indonesia”

Lunch on own: Suggested location is the Broward Dining Hall directly behind the Architecture Building (all you can eat for a single price)

14:00 NEURUS faculty meeting to discuss ongoing exchanges

Dinner on own students; Faculty at The Top, 30 N. Main St – 6:00 PM

Saturday April 13

08:30 Room Open for Refreshments

09:00 Session 3 Moderator: Scott Bollens

09:00 Molly Mendoza (UCI to HU) "Space for Growth: Government and Urban Agriculture in Berlin, DE and Long Beach, CA"

09:30 Lea Puels (UIUC) "Industrial Agricultural System in Illinois"

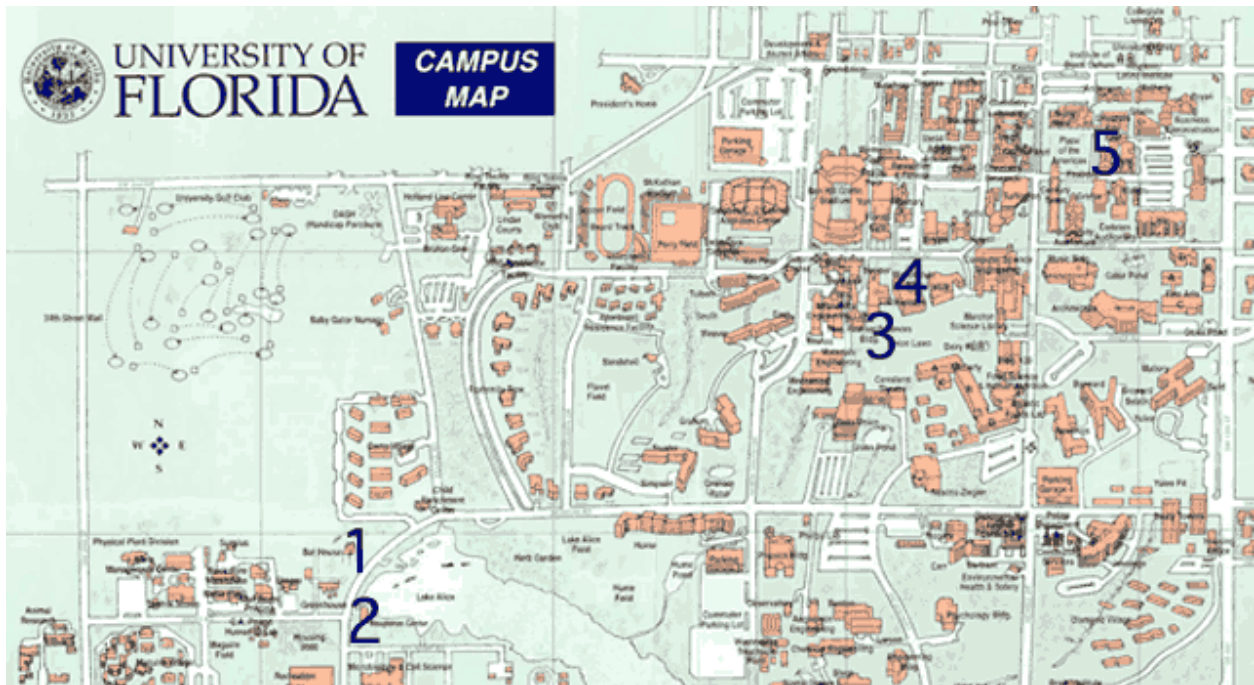

10:00 Kadair Brissett (UF to HU) "Einkaufsbahnhof: An Exploration of the German Main Station"

10:30 Martha Zaragoza (UCI to UG) "Dealing with Global Climate Change: Learning from the Dutch Integration of Spatial Planning and Water Management"

11:00 Paul and Gunther lead discussion on finalizing NEURUS projects; submission to web site for documentation; plans for dinner; other NEURUS business

Students and faculty who want to attend the Orange and Blue Spring football game should head to the "Swamp" (UF Football field over by the College of Engineering)

19:00 - Dinner for Students and Faculty, Leonardo's 706, 706 W. University Avenue, 7:00 PM

Architecture Building from the Front Lawn
